

Dear Colleague.

The European Union has introduced new working regulations for doctors. The National Society of Anaesthesiology and the European Society of Anaesthesiology are interested to evaluate the implementation of these regulations. The main target group is residents in anaesthesiology. However, all colleagues may participate.

We therefore ask you to click the link given below and give your answers as precise as you can. We ask you to give your response as soon as possible. March 1st 2008, we will evaluate the response rate.

There will be absolute confidentiality. The initials are asked in order to avoid double answers.

The survey is only one page and will take you a minute to answer

Thank you for your participation.
