Dear Colleague,

Welcome to the 5th International Symposium on Critical Bleeding (ISCB 2015) in Copenhagen, August 31st - September 1st.

Critical bleeding remains a major cause of potentially preventable deaths. ISCB 2015 addresses for the 5th time this topic with internationally renowned speakers.

The meeting will also provide a unique forum for physicians from different specialities involved in the treatment of patients with critical bleedings, (anaesthesiology, trauma, surgery, haematology, intensive care, and blood bankers) to exchange experiences, knowledge and to establish personal relationships for creative collaborations.

It is, therefore, a pleasure to again invite you to Copenhagen, where we will try to make this meeting to a hopefully memorable event from both a scientific and social point of view.

On behalf of the organising committee

Pär I. Johansson Jakob Stensballe
Congress Chairman Congress Secretary

CONGRESS VENUE
The congress will take place at Moltkes Palace, Copenhagen, located next to the Royal Castle, Amalienborg, in the middle of Copenhagen easily accessible from the city centre (Nyhavn) and hotel locations.
