

International Symposium on Critical Bleeding

Copenhagen, August 31th - September 1st 2015

Preliminary program

(December 21st 2014)

Monday August 31st

08.00-08.45 Registration and coffee in the exhibition area

08.45-09.00 Welcome and introduction

Prof. P.I. Johansson and Dr. J. Stensballe

09.00-10.15 Session 1: Coagulopathy and critical bleedings

Chairman: Prof. J.B. Holcomb

Prof. J.R. Hess

Coagulopathy in the emergency department (15 min)

Prof. R.P. Dutton

Coagulopathy in the operating room (15 min)

Prof. T. Lisman

Coagulopathy in the ICU and multiorgan failure (15 min)

Questions & Discussions

Case

10.15-11.15 Session 2: Red blood cell transfusions and patient outcome – What is new?

Chairman: Prof. C.M. Samama

Dr. L.B. Holst

RBC transfusion in the critically ill - Implications of TRISS (15 min)

Prof. J.R. Hess

RBC storage age - What does the data tell us? (15 min)

Prof. Johansson

RBC storage and outcome - New data! (15 min)

Questions & Discussions

11.15-11.45 Ask the experts - From the floor or free open access via

Chairman: Dr. J. Stensballe

The panel of speakers will respond to questions – put forward your questions already now!

11.45-12.30 Lunch in the exhibition area

12.30-14.15 Session 3: Haemostatic resuscitation – what is to drive the therapy?

Chairman: Prof. R.P. Dutton

Prof. S.A. Tisherman

Emergency Preservation and Resuscitation (25 min)

Prof. J.B. Holcomb

The Houston Concept (15 min)

Prof. M. Maegele

The German-Austrian Concept (15 min)

Dr. J. Stensballe

The Copenhagen Concept (15 min)

Questions & Discussions

Case

Preliminary program

(December 21st 2014)

Monday August 31st (cont)

14.15-15.15 Session 4: Antithrombotics and critical bleeding – Current and future challenges

Chairman: Dr. J. Stensballe

Prof. C.M. Samama

Antidotes to NOACs - what's the status (15 min)

Prof. T. Lisman

NOACs in hepatic failure - Is there a problem? (15 min)

Dr. S.R. Ostrowski

NOACs - Treatment of bleeding (15 min)

Questions & Discussions

15.15-15.45

Coffee in the exhibition area

15.45-16.15 Session 5: Breaking news from our main sponsor Octapharma

Chairman: Prof. P.I. Johansson

16.15-18.00 Session 6: Ongoing and recently closed trials in critical bleeding!

Chairman: Prof. M. Maegele

Prof. J.B. Holcomb

Ratio's in trauma - PROPPR trial (25 min)

Dr. A.J. Wikkelsø

Fibrinogen in postpartum haemorrhage - FIB-PPH trial (15 min)

Prof. R.P. Dutton

*What a large registry can tell us on about national transfusion practice-
Data from the National Anesthesia Clinical Outcomes Registry (15 min)*

Questions & Discussions

Case

19.30 Gala dinner at the Odd Fellow Manor

Preliminary program

(December 21st 2014)

Tuesday September 1st

08.30-10.00 Session 7: Trauma induced coagulopathy – News from the FP7-TACTIC research programme

Chairman: Prof. P.I. Johansson

Targeted Action for Curing Trauma Induced Coagulopathy

Prof. M. Maegele	Current praxis and demographics (12 min)
Prof. K. Brohi	Hot spots of coagulopathy (12 min)
Dr. S.R. Ostrowski	Endotheliopathy (12 min)
Dr. N. Juffermans	Viscoelastical Haemostatic algorithms in trauma (12 min)

Questions & Discussions

Case

10.00-10.30 Coffee in the exhibition area

10.30-11.30 Session 8: Plasma and factor concentrates - What is new?

Chairman: Prof. K. Brohi

Prof. M. Maegele	Fibrinogen - What does the current evidence tell us (15 min)
Prof. J.B. Holcomb	Plasma products - From liquid to lyophilized plasma and beyond (15 min)
Prof. J.R. Hess	New factor concentrates on the way to the market (15 min)

Questions & Discussions

11.30-12.00 Ask the experts – From the floor or free open access via

Chairman: Dr. J. Stensballe

The panel of speakers will respond to questions – put forward your questions already now!

12.00-12.45 Lunch in the exhibition area

12.45-13.05 Session 9: ISCB 2013 Best Poster Award

Chairmen: Dr. S.R. Ostrowski and prof. T. Lisman

Oral presentation of best poster

Preliminary program

(December 21st 2014)

Tuesday September 1st (cont)

13.05-14.30 Session 10. The future of haemostatic monitoring

Chairman: Prof. S.A. Tisherman

- | | |
|-----------------------------|--|
| <i>Prof. P.I. Johansson</i> | <i>Next generation viscoelastic haemostatic assays and platelets function testing (15 min)</i> |
| <i>Dr. N. Haase</i> | <i>Viscoelastic haemostatic assays in sepsis (15 min)</i> |
| <i>Prof. C.M. Samama</i> | <i>Monitoring of NOACs (15 min)</i> |

Questions & Discussions

Case

14.30-15.00 Coffee in the exhibition area

15.00-16.15 Session 11. Haemorrhagic shock – early interventions and monitoring in the early phase of transport and onward

Chairman: Dr. J. Steinmetz

- | | |
|---------------------------|---|
| <i>Prof. J.B. Holcomb</i> | <i>Resuscitation, clotting and more (15 min)</i> |
| <i>Prof. K. Brohi</i> | <i>Thoracotomy and REBOA - Is it worth it? (15 min)</i> |
| <i>Prof. R.P. Dutton</i> | <i>Haemodynamic monitoring of haemorrhagic shock – any news? (15 min)</i> |

Questions & Discussions

Case

16.15-17.30 Session 12. Hypothermia in critical illness

Chairman: Prof. J.B. Holcomb

- | | |
|-----------------------------|--|
| <i>Prof. S.A. Tisherman</i> | <i>The cellular effects of hypothermia (15 min)</i> |
| <i>Prof. P.I. Johansson</i> | <i>The effect of hypothermia on haemostasis (15 min)</i> |
| <i>Prof. A. Perner</i> | <i>Hypothermia in septic shock - any room for it? (15 min)</i> |
| <i>Prof. C. Hassager</i> | <i>Hypothermia in cardiac arrest and beyond (15 min)</i> |

Questions & Discussions

17.30-17.35 Closing remarks by Prof. P.I. Johansson
