

First European Symposium on Ambulatory Anesthesia and Analgesia

**13 credit points accredited by
 SGAR/SSAR, endorsed by ESA**

March 10, Friday

Lectures

Time	Topic	Speaker
10.00	Registration / Snacks	
11.30	Opening Words	Prof. Dr. Daniela Filipescu Dr. Alina Predescu
11.45	27 years of ambulatory anesthesia by MAS	Dr. Patrick Herrmann
12.15	Is it all about short acting drugs?	Dr. Anup Biswas
13.45	Ambulatory esthetic and hand surgery	PD. Dr. Merlin Guggenheim
14.15	Principles of Quality Management	Erol Pektas
14.45	Coffee break	
15.15	Ambulatory orthognathic surgery and facial anesthetics	Dr. Dr. Thomas Furrer
15.45	Spectrum of analgo-sedations in dental interventions	Dr. Dr. Michael Meier
16.15	Anesthesia and pain management in ambulatory arthroscopies	Dr. Thomas Schwamborn
16.45	The essentials of gynecology in day case mode	Dr. Pierre Villars

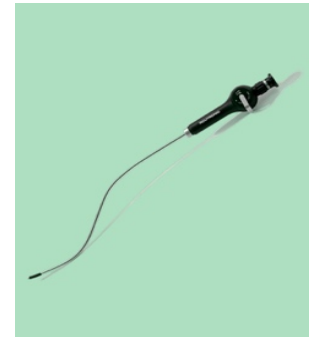

March 11, Saturday

Lectures

Time	Topic	Speaker
07.30	Breakfast with experts	
09.30	Ambulatory anesthesia in infants- perspectives and pitfalls	Dr. Martin Jöhr
10.00	The minimally invasive TED-PLMA monitoring in pediatric anesthesia	Dr. Dario Galante
10.30	Coffee break	
11.00	Safety in anesthesia – challenges and achievements	PD. Dr. Sven Staender
11.30	Skin surgery – not a superficial issue	Dr. Annett Härtel
12.00	Is ophthalmology an ideal discipline for ambulatory surgery?	Prof. Dr. Bojan Pajic
12.30	Lunch & Coffee	
13.30	Outpatient nose and facial surgery	Prof. Dr. Monika Gericke
14.00	Hyperbaric prilocaine spinal anesthesia in ambulatory surgery	Dr. Bastian Grande
14.30	A new epidural catheter for efficient neuro-axial analgesia	Dr. Omar Omar-Pasha
15.00	Current issues in analgo-sedation – the case for gastrointestinal endoscopy	Prof. Dr. Daniela Ionescu
15.30	Expanding indications in ambulatory coloproctology	Dr. Andreas Müller
16.00	Closing remarks	Dr. Alina Predescu
16.10	Distribution of certificates	AAA2017 Symposium

Difficult Airway Management

Dr. Bastian Grande
 Duration: 1 hour
 March 10, 10.30 & 13.15 & March 11, 09.30
 Become comfortable with the difficult airway management by training endoscopic intubation, jet ventilation and airway anesthesia in order to produce maintaining a wide margin of safety.

Response for Medical Emergencies

Dr. Sascha Klemm, Dr. Christopher Neuhaus
 Duration: 2.5 hours
 March 10, 14.15 & 17.15 & March 11, 13.30
 The mobile anesthesia and emergency simulator (HANS) is an artificial patient. With his help circulation, respiration, metabolism, brain function, pharmacokinetics and pharmacodynamics will be demonstrated and emergencies trained.

Ultrasound-guided Regional Anesthesia

Dr. Barbara Breebart
 Duration: 1 hour
 March 10, 13.45 & March 11, 08.30 & 11.00
 Increase your confidence using ultrasound by improving your practical skills. You will learn techniques for ultrasound guided needle placement and essential strategies on how use sonographic landmarks to identify nerve targets.

First European Symposium on Ambulatory Anesthesia and Analgesia

First European Symposium on Ambulatory Anesthesia and Analgesia

This first AAA symposium for ambulatory anesthesia under the patronage of ESA shall foster the collaboration and relationships between surgeons, anesthesiologists and day care personnel and to strengthen interdisciplinary competencies.

Besides the lectures on case scenarios and innovations there are various opportunities for problem solving discussions.

Our goals:

- „in somno securitas“- Safe in Sleep. Reaching this multidisciplinary goal in operating theatres is our vision.
- Sharing best practices and innovations in ambulatory anesthesia from anesthesiologists and surgeons for anesthesiologists and surgeons.

Scientific board

Prof. Dr. med. Daniela Filipescu (RO), Past Pres. ESA
 Dr. Bastian Grande (CH)
 Dr. med. Anup Biswas (UK)
 Dr. Dr. med. Thomas Furrer (CH)
 Dr. med. Alina Predescu (CH)

Zürich**

Registration & Information: www.aaa2017.com

Fees for physicians

Earlybird until November 30, 2016	CHF 380.--
Fee as of December 1, 2016	CHF 450.--
Workshop I - Difficult Airway Management	CHF 80.--
Workshop II - Response for Medical Emergencies	CHF 150.--
Workshop III - Ultrasound-guided Regional Anesthesia	CHF 60.--

Fees for nursing staff

Earlybird until November 30, 2016	CHF 250.--
Fee as of December 1, 2016	CHF 320.--
Workshop I - Difficult Airway Management	CHF 60.--
Workshop II - Response for Medical Emergencies	CHF 130.--
Workshop III - Ultrasound-guided Regional Anesthesia	CHF 60.--
